The image contains graphs and data related to the Geotail EPIC KP study. The data is plotted for various time intervals (UT) with corresponding X, Y, and Z values in GSM and GSE coordinates. The graphs show energy distribution in units of $1/(cm^2-s-sr/keV)$ for different energy levels (67 keV and 129 keV). The data is plotted on Wed Aug 11 18:52 1999.
